b) Species from which the product was obtained:
b) Type and number of packages:
c) Net weight of consignment:
d) Shipping marks:
.....

II. Origin of the products

- a) Name and address of exporter:
.....
.....
.....

III. Destination of the consignment

- a) The consignment was despatched from:
to:
(country and place of destination)

b) Name and address of consignee:
.....
.....
.....

c) Means of transportation:

IV. Health information

I, the undersigned certify that:

1. the meat products described above were derived from animals which were slaughtered in slaughterhouses approved for export to the European Union;
2. the meat products described above were derived from animals which have been subjected to ante- and post-mortem inspection, found to be free from any clinical evidence of infectious disease and fit for human consumption;
3. the meat products described above have been produced in an establishment approved under the European Union (EU) legislation laying down hygiene rules for food of animal origin and its official controls.
- *4. the United Kingdom legislation requires that any sheep or goats suspected of being clinically affected with scrapie are compulsorily slaughtered and the carcasses destroyed by incineration;
5. the United Kingdom has a comprehensive programme in place to monitor radioactivity in food and the environment. The results demonstrates that even the most exposed members of the UK public received radiation doses from consumption of local food and exposure to environmental radioactivity (due to discharges and direct radiation) that were below the statutory EU annual dose limit to members of the public of 1 millisievert per year from artificially-produced radionuclides as set in the Council Directive 96/29/Euratom of 13 May 1996.
6. the United Kingdom is recognised by the Office International des Epizooties (OIE) as a country free from foot and mouth disease (FMD) (without vaccination).
