CHECKLIST/SUPPORT DOCUMENT FOR 7784 and 7785EHC

EXPORT OF OVINE/CAPRINE SEMEN TO THE CHANNEL ISLANDS

This checklist/support document should be completed by the AVS for each consignment **after** the Notes For Guidance, 7784/7785NFG, have been read.

Species	
---------	--

Name of the owner and address of the holding/collection centre to which the above checklist/support document refers:

Name:
Address of holding/collection centre:

I hereby certify that I have made due enquiries and that the answers to the following questions are as follows (please tick):

	YES	NO
1. Do you have a 7784/7785SUP owners declaration/veterinary support certificate duly and properly completed for the donors?		
2. Are you satisfied that the 7784/7785SUP owners declaration/veterinary support certificate relates to the donor(s) and as far as can be determined, is factually correct?		
3. With regard to scrapie, do you have a Form 618NDC which gives authority from the Regional Veterinary Lead (RVL) to confirm that II paragraph 6 of 7784/7785SUP can be signed?		
4. Have blood samples been taken from the donor sheep/goats and submitted to the complement fixation test for brucellosis (<i>B melitensis</i>) within 30 days prior to semen collection with negative results? Date(s) of test:		
5. Have the blood samples been taken from the donor sheep/goats and submitted to the complement fixation test for <i>Brucella ovis</i> within 30 days prior to collection with negative results? Date(s) of test:		

	YES	NO
<p>6 Have blood samples been taken from the donor sheep/goats and submitted to the immunoperoxidase test for border disease within 30 days prior to collection with negative results?</p> <p>Date(s) of test:</p>		
<p>* THIS PARAGRAPH IS TO BE COMPLETED IN THE CASE OF OVINE SEMEN ONLY</p>		
<p>7 In the case of RAMS, have the donors been continually resident on the holding of origin for at least 60 days prior entry to the semen collection centre?</p>		
<p>8 Are you satisfied that the donors have not been used for natural service for at least 30 days prior to the first semen collection and during the collection period?</p>		
<p>9 At the examination carried out on the day(s) of collection were the donor sheep/goats free of clinical signs of infectious or contagious disease?</p> <p>Date(s) of collection:</p>		
<p>10 Was the semen collected and processed:</p> <p>EITHER</p> <p>i on a semen collection centre approved by DEFRA under Regulation 9 of the Trade and Animal Products (England) Regulations 2011 which implements Council Directive 92/65/EEC (as amended);</p> <p>OR</p> <p>ii on a holding satisfying the requirements of Directive 91/68/EEC articles 4, 5 and 6 and registered in the SAC Scrapie Monitoring Scheme and in respect of which a 7784/7785SUP owner declaration/Veterinary Support Certificate is available (Paragraphs 1 & 2 refer)</p>		
<p>11 Following collection, was the semen placed in sterile ampoules/straws, and individual doses indelibly marked with the dates of collection, the breed, identity of donor and the name or code of the approved centre?</p>		
<p>12 Does each ampoule/straw contain semen from one male donor only?</p>		
<p>13 Were the ampoules/straws sealed at the time of freezing (in alcohol or fresh liquid nitrogen), and were they then placed in sterilised containers, containing fresh liquid nitrogen?</p>		

	YES	NO
14 Was the semen placed in transport flasks which were cleaned and disinfected or sterilised before use and which were sealed and numbered prior to despatch from the approved facilities Seal Number:		
15 Has the semen been stored in approved conditions for at least 30 days prior to despatch in an approved semen storage room?		

If all the answers to the above questions (1 to 15) are "Yes" then the ovine/caprine semen meet the relevant requirements of Article 11 of Council Directive 92/65/EEC (as amended), and Articles 4, 5 and 6 of Council Directive 91/68/EEC (as amended).

* Delete in the case of caprine semen only.
