a) Name and address of exporter:

.....

b) Address of premises of origin, and isolation facility (if different):

.....

III. Destination of the animals

- a) Name and address of consignee:
.....
.....
.....

- b) Address of destination of the animals:
.....
.....

- c) Means of transportation and all available details of shipping
.....
.....

IV. Health information

I, the undersigned, certify that the animals described above meet the following requirements:

- (a) the animals for export were isolated for at least thirty (30) days immediately prior to export in an officially approved facility and supervised by an Official Veterinarian;

- (b) after due enquiry, and on the basis of a written declaration from the owner/owner's agent, I am satisfied that:
 - i) The animals on the premises of origin have never been fed raw swill or garbage;
 - ii) The animals for export will not less than three months of age at the time of shipment;
 - iii) In the case of female animals, they are not in their last trimester of pregnancy;

- (c) the United Kingdom is free from foot and mouth disease, African swine fever, classical swine fever, swine vesicular disease, Teschen disease and rinderpest in accordance with the OIE International Animal Health Code. Vaccination against these diseases is not permitted in the United Kingdom;

- (d) there has been no clinical evidence of the following diseases at the premises of origin:
 - (i) tuberculosis, brucellosis, leptospirosis, atrophic rhinitis, transmissible gastroenteritis, swine influenza or porcine parvovirus infection, clostridial enteritis, erysipelas, Glasser's disease, vibronic dysentery, mycoplasma-associated pneumonia and polyserositis and Salmonella choleraesuis infection - during the past 12 months;

 - (ii) porcine reproductive and respiratory syndrome (PRRS), porcine circovirus associated disease (PCVAD) - during the past 6 months;

- (e) the premises of origin are not situated in an area subject to official restrictions due to a notifiable disease to which pigs are susceptible;
- (f) on..... (date), within 30 days prior to export, blood samples were taken from the animals and sent to a laboratory officially approved by the competent veterinary authority where they were subjected to the following tests with negative results in each case:
 - (i) brucellosis - ELISA **or** buffered brucella antigen test (BBAT) **or** serum agglutination test (SAT) (less than 50 IU/ml);
 - (ii) porcine reproductive and respiratory syndrome (PRRS) - immunoperoxidase monolayer assay (IPMA) (negative result is a titre of less than 1 in 10) **or** ELISA (negative result is an S/P ratio of less than 0.4);
- (g) **Either**
 - i)* in the case of pigs exported from Great Britain;**
Great Britain is free of Aujeszky's disease and vaccination against Aujeszky's disease is not permitted; **or**
 - ii)* in the case of pigs exported from Northern Ireland;**
there has been no clinical, serological or pathological evidence of Aujeszky's disease on the premises of origin during the past 12 months; **and**
on (date), during the 30 day period prior to the intended date of export, blood samples were taken from the animals and sent to a Government laboratory where they were subjected to a serum neutralisation test (SNT) or ELISA test for Aujeszky's disease with negative results in each case (negative for the SNT at a dilution of less than 1:4);
- (h) on (date), and on (date), being at an interval of 10 - 14 days during the 30 day period prior to the intended date of export, the animals were injected with streptomycin / dihydrostreptomycin at a dose rate of 25mg/kg live body weight;
- (j) on..... (date), being within 7 days prior to the intended date of export, the animals were treated for the removal of external parasites using the following licensed medicinal product according to the manufacturer's instructions:.....;
- (k) on..... (date), being within 7 days prior to the intended date of export, the animals were treated with the following licensed broad spectrum anthelmintic according to the manufacturer's instructions:
- (l) on (date), being within 24 hours of loading, I examined the animals and found them to be free from clinical signs of infectious or contagious disease;

- (m) a signed undertaking has been received from the owner / exporter stating that the following arrangements have been made regarding the transportation of the animals from the premises of origin to the airport / port of shipment:
 - (i) they will be transported direct in containers/vehicles previously cleansed and disinfected with an approved disinfectant;
 - (ii) they will be transported without coming into contact with any animals other than those similarly certified.

V. Validity of Certificate

This health certificate is valid for 15 days from the date of signature. If the consignment is transported from the country of origin by sea, the period of validity is extended by the duration of the voyage.
