DEPARTMENT OF AGRICULTURE, ENVIRONMENT AND RURAL AFFAIRS, NORTHERN IRELAND

Export Of Frozen Caprine Semen From Great Britain To Australia

Appending Schedule to Export Health Certificate serial number:

Australian Import Permit Number:

I. Information concerning the donor buck(s)

a) Donor identity and residency details.

Breed	Herd or studbook number	Eartag, tattoo brand or microchip number	Name

Herd or studbook number	Date of pre-entry isolation	Date of entry into collection centre / resident herd

b) **Microchip.** Prior to entry into quarantine each donor was individually identified by microchip implanted midline between the shoulder blades or behind the ear.

*[The veterinary certificate must indicate the option that applies.]*

**b) Storage at Approved Centre(s) or Laboratory(ies).**

From the time of collection until export, the reproductive material in this consignment was stored:

- i) in sealed containers (e.g. straws, ampoules or vials) and identified in a legible and non-erasable manner as specified in this veterinary certificate
  - ii) only with other embryos or semen collected for export to Australia, or of equivalent health status
  - iii) in a secure place within an approved centre or laboratory and under the supervision of the Approved Veterinarian(s),
- AND:
- iv) in containers containing only new, unused liquid nitrogen.

**c) Further processing or aggregation.**

For this reproductive material, EITHER:

\*i) After leaving the approved centre under seal in shipping containers (liquid nitrogen shippers/tanks), the reproductive material was NOT removed from sealed containers (e.g. straws, ampoules or vials) for further processing or removed from the shipping container(s) for aggregation with other reproductive material.

OR:

\*ii) Reproductive material was shipped to another approved centre or laboratory under seal in shipping containers (liquid nitrogen shippers/tanks) and removed from sealed containers (e.g. straws, ampoules or vials) for further processing (e.g. sex sorting) or for aggregation:

- with other reproductive material collected for export to Australia, or of equivalent health status
- at an approved centre or laboratory and
- under the supervision of the Approved Veterinarian(s).

The date(s) of transfer between the approved centre(s) or laboratory(ies), reason for transfer(s) (e.g. for sex sorting), name(s) of the approved centre(s) or laboratory(ies) and the Government approved veterinarian(s) are listed against the shipping container/s on this certificate before departure from the approved centre or laboratory. The unique seal number of each shipping container is included in this documentation.

NOTE: For transfers to another approved centre or laboratory, the Approved Veterinarian must ensure the shipping containers are transferred under seal as described below:

Date of transfer.....

Reason for transfer.....

.....

Name of approved centre / laboratory.....

.....

Approved veterinarian(s).....

.....

Shipping container seal number(s).....

.....
