.....

IV. HEALTH INFORMATION

I, the undersigned, certify that:

- 1) the semen described in Paragraph I was legally imported into the United Kingdom and has been stored at the Semen Storage Centre as described in Paragraph II, which is approved by the competent veterinary authorities of the United Kingdom and is under official veterinary control;
- 2) the semen was collected, processed and stored in accordance with the animal health requirements set out in export health certificate reference 7859EHC (Agreed 24/02/2016) for the export of bovine semen from the United Kingdom to the Kingdom of Bhutan;
- 3) whilst stored at the Semen Storage Centre as described in Paragraph II, the semen has not been in contact with semen of a lesser health status;
- 4) the semen has been placed in a previously cleaned and disinfected container, which before dispatch was sealed under veterinary supervision. The seal number is stated at paragraph III 3) above;
- 5) the United Kingdom is free from foot and mouth disease (FMD), rinderpest and

Contagious Bovine Pleuropneumonia (CBPP) in accordance with the OIE Terrestrial Animal Health Code.
